

Biological and Biomedical Sciences Graduate Program Annual Student Report
 Special Committee Members Evaluation

Student Name	Semester/Year started	Date of meeting
--------------	-----------------------	-----------------

To be completed by Field-appointed member or by a minor member.

Milestones for BBS Students – Years 2 and 3	Semester/yr completed	Not completed
A-exam - Cornell Graduate School rules require that all students must take their A-exam between the end of their first year and the end of their third year.		
Teaching - All students in the BBS program are expected to teach one semester in either their second or third year.		
Ethics - All students must complete a one-semester course on ethics (BioMG7510, offered only in the spring) as part of their course requirements. Formal training in the Responsible Conduct of Research is a required component of many fellowships (e.g. NIH, NSF).		
Seminars – Students are expected to present their work (e.g. work-in-progress, national meeting) at least once each year.
