Evaluations

Issue IV (Fall 2015)

Evaluations

Evaluations for veterinary, animal, and biomedical research experiences as well as academic evaluations can come in through the VMCAS eLors, Cornell electronic evaluation system or by paper. Please do not ask your references to do 2 different evaluations.

When listing the experiences on the Cornell Supplemental Application you will be able to tell us how we will be receiving the evaluation.

If you are applying to the *Combined DVM/PhD Program*, however you will need to have **3 additional evaluations** sent in through the Supplemental Application. These are separate and support the PhD side of the application.

Cornell Electronic Evaluation

If you choose to have an evaluator complete the Cornell electronic evaluation system they will receive an email asking to do the evaluation as soon as you list their email address and save or leave that page of the application. Note you will not be able to

make changes to that experience (including waiving your rights to the evaluation if you forgot to check that box), once you leave the page, so *please proof carefully before you move on.*

List Evaluators ASAP

Completing Section 2 and 3 will populate the 'evaluation' portion of your Tracking Page. We will not be able to track in evaluations received until this section is completed.

When emailing with questions or requests regarding your application please include your VMCAS ID
