Faculty Position in Cardiology

The Department of Clinical Sciences in the College of Veterinary Medicine at Cornell University invites applications for a tenure track Cardiology faculty position in the Section of Cardiology. This will result in a total of two tenure-track cardiologists and one part-time cardiologist with the goals of supporting robust pre-clinical and clinical research programs, providing excellent cardiology services in the Cornell University Hospital for Animals, and maintaining a strong teaching and outreach program. The Cardiology Service is supported by two experienced, licensed technicians (LVT), and two cardiology residents in a comprehensive, state-of-the art teaching and referral hospital. The CUHA is equipped with extensive therapeutic and diagnostic equipment including Toshiba Artida echocardiographic imaging system with speckle tracking, three-dimensional echocardiography (TomTec mitral valve analysis package), pediatric transesophageal probe, adult multiplane transesophageal probe, 2 Eickemeyer electronic electrocardiograph systems, in-house Forest Medical Holter system with customized software for QT/TQ restitution analysis, Ziehm C-Arm fluoroscope, Medtronic LifePak defibrillator, Biopac MP 150 data acquisition system, and Sonosoft reporting system.

Candidates must have a DVM or equivalent degree and have completed a residency in veterinary cardiology. Preference will be given to candidates with board certification (ACVIM or ECVIM). Clinical and/or basic science research experience is desirable.

Distribution of effort in the section and department will be determined in accordance with the service needs, academic priorities, and the candidate’s expertise and academic goals in cardiology. Clinical teaching and service in the CUHA, lecture and laboratory instruction of veterinary students and house officers, and independent and collaborative research expectations are negotiable. Extensive opportunities for collaborative research exist at the College and University, including Weill Medical College and technology campuses in New York City.

Clinical duties require flexible working hours that may include daytime, evening, and weekend responsibilities. The candidate should have strong interpersonal skills and the ability to work cooperatively with all of the sections in the Hospital.

Salary, rank and title will be commensurate with academic credentials and experience.

Cornell is located in Ithaca on the shores of Cayuga Lake in the beautiful Finger Lakes region of New York. Ithaca is a vibrant city with art museums, theaters, and a diverse selection of restaurants. It is within driving distance of several large metropolitan centers, award-winning wineries, and downhill skiing areas. Ithaca is a nature-lovers paradise with ample opportunity for hiking, camping, horseback riding, swimming, sailing, bird watching, snowshoeing, and cross-country skiing.

Cornell University embraces diversity and seeks candidates who will create a climate that attracts people from all races, nationalities and genders. We strongly encourage underrepresented minorities to apply. The University seeks to meet the needs of dual career couples and has a Dual Career program to assist with dual career searches.

For more information, go to: http://www.vet.cornell.edu/clinsci/ or contact Dr. Cheryl Balkman, Chair of the Search Committee at ceb11@cornell.edu.

Electronic application submission is through Academic Jobs Online: https://academicjobsonline.org/ajo/jobs/5353

The required sections of the application include a cover letter describing your research interests, teaching philosophy and clinical interests, curriculum vitae, and email addresses for letter requests of 3 referees who will be invited to upload their letters at this site.

Review of applications will begin on March 1, 2015, and continue until the position is filled.
